

## What is Theology-On-Tap?

Theology-On-Tap is a four-week speaker conversation program that takes God out of the confines of a church building and into the daily lives of young adults by offering a series of topics that young adults care about in a relaxed and fun environment.

## Who will attend Theology-On-Tap?

We are targeting the Catholic young adult community --- singles and couples in their 20's and 30's: young adults trying to make sense of their lives. These young adults are seeking to meet other Catholic young adults asking some of the same questions.

## Why target this audience?

This group of people are often overlooked by the Catholic Church. There are programs designed to meet the needs of elementary to junior high, high school and older adults. After receiving the sacrament of confirmation or graduation from high school, there is no direct follow-up by the Catholic Church to young adults.

We want to remedy this situation by providing more guidance and support for young adults as they make critical decisions about work, school, family, relationships, even decisions regarding their faith.

Theology-On-Tap is one step in that direction.
